

ENVIRONMENTAL POLICY OF ZISIMOPOULOS S.A.

ZISIMOPOULOS S.A. implements the Environmental Management Policy and commits to the implementation of the Environmental Policy and the continuous improvement of its effectiveness.

The Policy sets the frame for the definition of the environmental objective aims and targets, evaluating the needs and supplying with the required means for the effectiveness of the System.

The Environmental Policy commits the company to comply with any environmental regulation and demand. Furthermore, the Policy is factual and its implementation is monitored through reviewing procedures.

The suitability of the Policy is assured by regular reviews and evaluations as well as inspection programs.

The Environmental Policy of the company is shared to the employees so that they are also aware of their obligations towards the abidance of the Policy and it is available to all the people involved.

Copies of the Environmental Policy are posted on apparent spots in the premises to remind everyone of their responsibility to comply with the Environmental Policy Management. The declaration of the Environmental Policy for ZISIMOPOULOS S.A. through which its commitment is defined has as follows

ENVIRONMENTAL POLICY
